

Mareco Luce photovoltaic systems; help us to suggest the best setting for your installation plant.

In order to suggest the best setting of your Photovoltaic plant, according to your specific needs, please provide us with the following details:

- 1- INSTALLATION PLACE (as much detailed as possible).
- 2- TYPE OF PLANT (PUBLIC INSTALLATION - PRIVATE LIGHTING – PUBLIC PARK - PARKING)
- 3- REQUIRED LED POWER AND/OR LIGHT OUTPUT (ACCORDING TO THE TENDER REQUIREMENTS OR IN CASE OF SUBSTITUTION OF STANDARD LUMINAIRES)
- 4- POSSIBLE HOURS IN WHICH THE LUMINAIRES HAVE TO FUNCTION MANDATORILY, AND/OR OTHER SPECIFIC REQUIREMENTS (E.G. NUMBER OF DAYS IN WHICH THE LUMINAIRES HAVE TO FUNCTION ON ALSO IN CASE OF CLOUDY WEATHER)
- 5- NUMBER OF HOURS OF FUNCTIONING DURING THE NIGHT (this has an influence on the choice of the battery and on the quantity of solar panels)
- 6- HEIGHT OF THE POLES (if specifically required)

For any further explanation or request, please contact our Export Department (export@marecoluce.it).
